PROFESSIONAL SUMMARY

Driven Computer Science student at Polis University with a solid grounding in software development and a passion for cutting-edge technology. Proficient in Python, Java, and C#, I bring both technical expertise and leadership experience to every project. I am eager to apply my skills to real-world challenges through a tech internship, contributing to innovation and project success within a dynamic, collaborative team. My goal is to build efficient, high-quality software solutions while continuously learning and growing in the fast-evolving tech industry.

CORE COMPETENCIES:

Software Development:	▪ Programming Languages ▪ Web Development: ▪ Database Management
Problem-Solving:	▪ Analytical Thinking ▪ Debugging and Troubleshooting ▪ Critical Thinking
Algorithm Design and Optimization:	▪ Data Structures ▪ Algorithmic Complexity ▪ Optimization Techniques
Team Collaboration:	▪ Communication Skills ▪ Collaborative Problem-Solving ▪ Agile Methodologies

EDUCATION

Faculty of Research and Development, Polis University ▪ Tirana, Albania   **October 2022- July 2025**
Bachelor's Degree in Computer Science ▪ Scholarship of Excellence

> **Program Overview**: Engaged in a comprehensive curriculum focused on computer science principles, software development methodologies, and advanced programming techniques.
> **Scholarship of Excellence**: Awarded a prestigious scholarship in recognition of academic achievement and demonstrated potential in the field of computer science.
> **Expected Graduation**: Anticipated completion of the program in July 2025, equipped with a solid foundation in computer science and prepared to embark on a successful career in the tech industry.

TRAINING EXPERIENCE

ANDRRA Academy, CT, USA   **November 2023- May 2024**
ANDRRA Academy: Empowering Lifelong Learners for Success
ANDRRA Academy fosters continuous learning and personal development, equipping members with essential skills for the dynamic tech industry.
Program Duration**:** 6 months.
> **Technical Skills Development**: Rigorous training in Python, Java, C#, website and application development.
> **Soft Skills Enhancement**: Cultivating project management, communication, and networking skills.
> **Holistic Skill Building**: Developing critical competencies like critical thinking, adaptability, and problem-solving.
> **Certification:** Received ANDRRA Academy Certification, validating mastery of technical and soft skills.

CERTIFICATIONS

- **Learning Python** (LinkedIn Learning) - Focused on Python basics, advanced data handling, and automation techniques.
- **Python Essential Training** (LinkedIn Learning) - Developed proficiency in robust Python solutions for business applications.
- **Python: Design Patterns** (LinkedIn Learning) - Enhanced skills in structural and behavioral design patterns to improve software architecture.
- **Full Stack Web Development** (Intership at Epoka University) - Applied front-end and back-end technologies to design, develop, and deploy fully functional web applications, collaborating with teams to create scalable solutions.
- Additional certifications in **XML, JSON, WordPress**, and Sketch, bolstering capabilities in web development and user interface design.
- **JavaScript (Basic, Intermediate) – HackerRank** – Demonstrated **problem-solving and algorithmic thinking** in JavaScript, covering essential concepts for front-end and back-end development.
- **Frontend Developer (React) – HackerRank** – Validated expertise in **React.js development**, including component-based UI architecture, state management, and performance optimization.
- **Software Engineer – HackerRank** – Recognized for **strong software engineering skills**, with proficiency in data structures, algorithms, and system design.

PROJECTS

Interactive Quiz Application (Team Leader)
- Directed a team of five in designing and implementing a Python-based interactive quiz application, enhancing learning through technology.
- Orchestrated project phases from concept to deployment, ensuring alignment with project goals and deadlines.
- Innovated by integrating APIs for real-time data processing and analytics, enhancing user engagement and platform capabilities.

Design/Develop/Build ANDRRA Academy Website
- Engineered and launched a comprehensive educational platform, focusing on user experience and accessibility.
- Led the debugging and optimization process to ensure operational excellence and user satisfaction.
- Effectively communicated project benefits and technical specifications in a well-received presentation to stakeholders.

Live News Website
- Developed and launched a real-time news platform, integrating dynamic content updates to enhance user engagement and information delivery.
- Led front-end and back-end development efforts, focusing on responsive design and performance optimization for seamless user experiences across devices.
- Collaborated with stakeholders to present the platform's technical specifications and features, resulting in a successful project implementation.

LinkedIn Clone
- Built and deployed a LinkedIn-inspired social platform, replicating core networking functionalities, including user profiles, connections, and job postings.
- Focused on scalable architecture, user authentication, and real-time updates to ensure smooth user interactions and platform reliability.
- Presented a well-received demo to stakeholders, highlighting key technical achievements and the platform's potential for growth and future enhancements.

New Portfolio Website
- Designed and developed a personal portfolio website to showcase projects, skills, and achievements.
- Implemented a modern, responsive UI using React.js and Tailwind CSS, ensuring seamless navigation across devices.
- Integrated dynamic content sections, including project showcases and an interactive contact form, improving user engagement.

PROFESSIONAL EXPERIENCE

Funnels-App (Freelancer)
Front-End Developer   2023 - 2024| Albania

As a Front-End Developer at Funnels-App, I am instrumental in shaping and enhancing the user experience for our advanced sales funnel management platform. My role involves crafting and implementing intuitive user interfaces using React, TypeScript, Tailwind CSS, and Next.js, ensuring that our website performs seamlessly across various devices and browsers. By focusing on both performance optimization and user-centric design, I contribute to streamlining sales processes and boosting conversion rates for businesses. My work is pivotal in delivering a high-quality, engaging platform that meets the evolving needs of our users.
